wanted to make sure you are updated. 5 wells above new risk levels posted by OSWER. If Jon is out you should probably catch Vicky to see what is going on.

Subject:

Heinz and Lisa Daniels were reached. Karen was still trying to get Scott. Heinz question was were we going to do some press this weekend. We said no, we wanted them to know ASAP so they could decide what they wanted to do. 1) Levels above new risk levels just posted -= toxicologists meeting on Monday afternoon. 2) Results showed organics on Friday not previously shown before 3) were samples Cabot took total metals. Jeanne Briskin, I wanted to make sure you are aware that the risk levels on our EPA website were updated a few days ago. Please talk with Vicky or Karen on Monday. Shawn talked with Bob Sussman today to let him know that our toxicologist will be talking on Monday.
